

Crosslinker

Description	Chemical composition	SiO2 content(%)	Cas number	Properties
SILICATE TES 28	Tetraethoxysilane, monomeric ethyl silicate	28	78-10-4	Improved chemical and mechanical properties by thin SiO2 film. Highly heat resistant.
SILICATE TES 40	Tetraethoxysilane Oligomer	40	68412-27-3	Improved chemical and mechanical properties by thin SiO2 film. Highly heat resistant.
